SYNOPSIS

Far, far away and out of sight, that's where April, Dave, Cindy, Rick and the Godfather are creating life on their own terms. From the depths of the flood channels under Sin City, to a re-claimed military bunker in the middle of the dusty, heated Californian nowhere land to beyond the stratosphere where Mars now lives on earth. Each individual has been flung into periling circumstances on this rollercoaster ride called life. Through the hustle, pain, and laughter, we are whisked away to an unfamiliar world where we discover its inhabitants to be souls not unlike our very own.
