

# ATOMIC AFRICA

by Marcel Kolenbach (publicnomad)

## SYNOPSIS

This film is about the criminal activities of multinational nuclear enterprises in Africa. It shows how uranium mining by French, German, British, Canadian and American companies causes the slow death of millions of people, it describes the dangers of gangs and terrorists illegally acquiring nuclear material, it proves how tons of European and American nuclear waste are dumped on African soil - and it shows how ruthlessly the nuclear industry lobbies African governments to invest in nuclear power.
