

BOYZ

by Sylvain Cruiziat

SYNOPSIS

The Gen Z friends Maxime, Julian and Vilas live in Munich in late adolescent carefreeness – their everyday lives consist of studying, partying and Playstation. Slowly, the three begin to move in different directions, but they all face a common challenge: the path to adulthood. Their special intimacy with each other seems unaffected by stereotypes of becoming men. The three of them naturally cuddle up in the daybed and introduce us to a new concept of male friendship. Maxime will soon leave the group to study abroad. Leaving is hard, but staying behind is even harder.
