

CAN AND ME

by Michael P. Aust, Tessa Knapp

SYNOPSIS

Narrated by Irmin Schmidt, a member of krautrock legends Can, the film touches on a number of stories: not just the band that influenced the development of experimental rock and the gravitation towards electronic music. The experience of the Nazi era commanded post-1945 Germany to reject the music of romantic and patriotic pathos so exploited by nationalism. It had to start again: but did anyone know that the research into electronic technologies was preparing a new era of club music, of media sound, of the audiovisual world? Schmidt also talks about his solo work, and there is no shortage of statements by great musical figures. [27 Ji.Hlava]
