

CLIMATE WARRIORS

by Carl-A. Fechner

SYNOPSIS

CLIMATE WARRIORS focuses on one key factor: the energy change. The film presents people who act for resistance to strong lobbyists and in human societal realities.

Facts, that need fast change to save the environment and keep the human rights in balance in order to keep peace. War and hunger for energy seem dangerously intertwined. Can the struggle to fight for these resources be stopped with renewable energy solutions?

This movie shows how the energy revolution can actually be realized.
