

# DEFAMATION

by Yoav Shamir

## SYNOPSIS

This film attempts to tackle contemporary anti-Semitism in different places around the world. It puts a face on the phenomenon, and shows how it is expressed in its most banal, recurring form. Statistics show a rise in anti-Semitism. By backtracking the day-to-day incidents with the participation of both victims and perpetrators, the desecration of synagogues and cemeteries, and physical and verbal attacks on Jews the film tries to capture the tension between how Jews perceive themselves and how they are perceived by non-Jews.
