

DIALOGUE OF BERLIN

by Nicos Ligouris

SYNOPSIS

A cinematic essay that combines documentary, fiction and philosophical contemplation on the subject of the paradoxical interplay between the cultures of the European North and South, with the camera performing continual back-and-forth movements between Germany and Greece. Ethnography and historiography, culture and everyday life, political and personal experience all come together forming new references, in the course of what constitutes a journey through the labyrinth of recent European history.
