

ESPERANZA 43 - HOPE 43

by Oliver Stiller

SYNOPSIS

On September 26 2014 in Iguala/ Mexico 43 students of the University Raúl Isidro Burgos of Ayotzinapa disappeared after being attacked by municipal police units. During the same night further six people died. Officially the case has been closed and the missing young men were declared dead, although none of them has been found. The lawyer Luis Salas classifies the scanty evidence.

A student named Ernesto survived the violent acts. He still hopes to be reunited with his fellow students in class.

Since the night of the incidents, the parents of the forty-three students have been demonstrating on campus, hoping and waiting for the return of their children, or at least for certainty and justice.
