

EVERYTHING WILL CHANGE

by Marten Persiel

SYNOPSIS

In a dystopian 2054, three young rebels go on a journey to find traces of the long lost beauty of nature, hoping to discover what happened to their planet. The answer lies in the past and when they find the key to a decade – the 2020s – when a colourful future was still possible, everything changes. In this unusual road movie, lighthearted fiction meets scientific fact to explore the most pressing question of our time: Extinction.
