

FOR EVER

by Pia Lenz

SYNOPSIS

Eva is 83 and Dieter 86. They danced together for the first time in the winter of 1952. They wrote love letters to each other and imagined a life together. They got married, built a house and had three children. They lost one daughter. At the beginning of filming, Eva and Dieter have been a couple for 66 years. What remains of that and what still counts now? This is what the feature documentary film FOR EVER by award winning director and cinematographer Pia Lenz is about.
