

# FREEPORTS - THE BEAUTY OF TAX FREE STORAGE

by Martin Gronemeyer

## SYNOPSIS

For the first time ever, our film will expose the secret world of these unknown tax havens.

There is a global network of tax-free storage facilities valuable goods, catering to the super rich – and it's virtually unknown, until now it has been featured so prominently in Christopher Nolan's new film TENET. Freeports feature highest security levels, confidential record keeping and an offshore legal status and are a huge potential for tax savings. Our film investigates their rise, searching who is using them, and why.
