

# HIGHWAY TO THE ARCTIC

by Karl Teuschl

## SYNOPSIS

Every winter, ice roads are built across hundreds of miles in Canada's far north, connecting frozen rivers and lakes, and stretching up to the very northern tip of the country by the Arctic Ocean. For the people living in the remote villages of this region these 'ice highways' are of vital importance. Until April, trucks are coming up here all the way from down south, bringing supply goods for the whole year to these locals, and life changes until the ice roads are melting again and disappear into the ocean.

## CAST AND CREW

DIRECTOR Karl Teuschl

2016
