

I'M OKAY

by Pia Lenz

SYNOPSIS

Over the course of a year Pia Lenz followed the Syrian girl Ghofran, aged 11, and the Romanies-boy Djaner, aged 7, who came together with their families to Germany as refugees, in their search to find a place for themselves. The perspective of these children offers a clear and very moving view of this new cohabitation in Germany one year after the arrival of over a million refugees. The film asks the question: How can we give a homeland to those who most urgently need a future?
