

JFK'S LOVE FOR EUROPE

by Kai Christiansen

SYNOPSIS

John F. Kennedy is known as a charismatic and popular U.S. President. What is behind the political pop star who first inspired the U.S. and then half the globe in the early 1960s? The film returns to his early years as an adventurous student in the 1930s and recounts his life through his travels across the Atlantic. We get to know a different Kennedy. One who flirts a lot, is inspired by cultural heritage and begins to think about political contexts during his travels. A young man looking for his way in life.
