SYNOPSIS

What is going on in Germany? Is Germany really a pain in the neck? And if so, why? In this documentary road-movie shot between 2005 and 2008, director Hans-Erich Viet travels through Germany to find out just how the German soul ticks. The journey took place without any concrete planned destinations, but rather was determined through the events that took place and offers answers to all the moaning and groaning going on in Germany today.
