

# MENMANIACS - THE LEGACY OF LEATHER

by Jochen Hick

## SYNOPSIS

One summer in S&M and leather. Chicago, New York and San Francisco are only three stations in the annual circuit of a leather crowd which travels from event to event - in order to meet, to have sex or just to fantasize about it. Amsterdam based "Tom of Hamburg" is a former "International Mr. Leather"-title-holder, S&M pornstar and porn producer. He and his friends take us on an intense and erotic trip to the two main events: the "International Mr. Leather" and "Mr. Drummer" contests. We meet contestants and leather women, SM-porn-actors and title-holders, uniform fetishists and longterm slaves.
