

MICHAEL MARTIN - A DESERT ADVENTURE

by Sebastian Lemke, Jonas Niewienda, André Schäfer, Viktor Stauder

SYNOPSIS

This series accompanies the geographer, photographer and explorer Michael Martin on five of his unique desert expeditions. Michael Martin's goal is to compare the world's most spectacular hot and indeed cold deserts. Over the course of three years he has undertaken 40 expeditions to 24 locations and circled the globe four times. He not only documents the fantastic landscapes in his photographs but also the people who live under these most extreme circumstances. Of these 24 locations, we have chosen five destinations to be featured in the first season of MICHAEL MARTIN - A DESERT ADVENTURE. We accompany him on dog sleds, helicopters, ships and planes and – whenever possible – on his motorbike.
