

MILLCITY, MONTANA

by Rainer Komers

SYNOPSIS

Meticulously composed images, impressive collages of sound, no dialogue: „Milltown, Montana“ is an elegiac excursion across a magnificent landscape deeply scarred by man. Applying the same majestic imagery as in his prize-winning films, „Kobe“ and „Nome Road System“, Rainer Komers documents what was once the largest mining region in the United States, now contaminated by toxic substances and heavy metals, and seemingly trapped in a post-industrial phase of standstill.
