

MORE THAN HONEY

by Markus Imhoof

SYNOPSIS

Albert Einstein once said: "If bees ever die out, mankind will have only four years left to live". In the past five years, billions of honeybees simply vanished for reasons still obscure. If the bees keep dying, it will have drastic effects for humans as well: more than one third of our food production depends on pollination by honeybees. Seeking answers, the film embarks on a world journey to discover bees and men. MORE THAN HONEY is the provocative yet touching tale of what may happen to mankind all over the world. A 2M Euro budget documentary by Oscar® nominated director Markus Imhoof and by the creators of LET'S MAKE MONEY & WE FEED THE WORLD
