SYNOPSIS

The crash of an Israeli Boeing 747 cargo plane into an Amsterdam apartment building in 1992 turned into a mystery that now spans three decades. Fueled by unexplained illnesses, strange men in white suits, a secret section in Amsterdam's Schiphol Airport, an unaccounted-for cargo with potentially disastrous consequences, covert political battles - and a missing black box, the two-part series develops the full story - all the way to today. This international political thriller looks at freedom of information and reveals the cost to which powerful financial and political players, continue to place profit over security and institutional power over the well-being of citizens.
