

MY PRIVATE WAR

by Harriet Eder, Thomas Kufus

SYNOPSIS

Unique film material, never previously screened, shot by six German soldiers as they invaded the Soviet Union in WW II. The specific angle - that of amateur film-makers - and the use of 16mm colour film, means the film provides a completely different picture of the Eastern Front. The men who took the pictures have been traced and interviewed. Their enthusiasm about the technical quality of the pictures gives the film a cruel insight into the perfection of the Nazi machine. [IFFR 1994]
