

# NO STRAIGHT PATHS

by Kristina in der Schmitten

## SYNOPSIS

"Life is what happens to you while you are busy making other plans." (John Lennon) The five protagonists - and the director - in "No straight paths" had several things in common: They went to the same school, graduated together and had many dreams and visions about what they wanted to do with their future. In the meantime, half of life is over and they have realized: Things never turn out the way you expect. An anniversary - 20 years of graduating - gives reason to review how life has played.
