

NOTTURNO

by Gianfranco Rosi

SYNOPSIS

Notturmo was shot over the past three years along the borders of Iraq, Kurdistan, Syria, and Lebanon. A region where tyranny, invasions and terrorism have fed off each other in a vicious circle, to the detriment of the civilian populations. All around signs of violence and destruction: but in the foreground is the humanity that reawakens every day from a nocturne that seems infinite. NOTTURNO, a film of light on the darkness of war.
