

# PiN2011 – RECOLLECTION OF THE STREET

by Torsten Königs

## SYNOPSIS

PiN2011 is the tag - the term used for the pen name that graffiti artists use to sign their work - of an ingenious and misunderstood German artist, who is incessantly followed by the documentary but manages to conceal his face right to the bitter end. A sort of streetArt outlaw, able to dream up three-dimensional graffiti and paint it on city walls even as far as Portugal. A captivating, intense tailing that continually questions the sense of making art against a system that excludes and destroys: the diary of an isolated, clandestine creator menaced by a sense of threat and fatality. The unexpected tragic ending transforms his life into an alarming message.
