

# RICARDO RIBEIRO: SOMETHING MORE ABOUT FADO

by Paulo Ferreira-Lopes, Hartmut Jahn

## SYNOPSIS

When we go down Chiado, the old cistern of Lisbon, which has been drained for several years, opens for us. When Antonio leads us to this place, we know where to invite Ricardo Ribeiro, the fado star. Ricardo Ribeiro has just released his new CD and leads us to his sound world between the promotion events. We start with the fado leitmotif – and with his guitar and voice, we experience a musical journey through Africa, the Arab world, flamenco, and other influences that have shaped his fado.
