

# ROCK HUDSON - DARK AND HANDSOME STRANGER

by Andrew Davies, André Schäfer

## SYNOPSIS

Two reasons to revive interest in Rock Hudson in 2010: If he had not died of AIDS 25 years ago, it would have been his 85th birthday in November 2010. The film will be revealing a gay star doing a secret balancing act between the heterosexual world of an obviously very male looking star and the dark side of forbidden sexuality as a closeted gay. In fact someone who always needed to tell lies. Was he also lying to himself? German title: ROCK HUDSON - SCHOENER FREMDER MANN
