

SOME HAD KROKODILES

by Christian Hornung

SYNOPSIS

SOME HAD CROCODILES is a portrait of Hamburgs famous and notorious harbor area - or better: a portrait of the people who came decades ago in search for a different way of live, and who stayed throughout the years. Former exotic dancers and bartenders, sailors and pimps, today they all meet in their favorite pubs remembering the good old days - and saving some money for the hard times to come: All of them are members in the so called 'Saving Clubs'.
