

THE BALTIC COAST FROM ABOVE

by Silke Schranz, Christian Wüstenberg

SYNOPSIS

In the tradition of Yann-Arthus Bertrand's Home, THE BALTIC COAST FROM ABOVE brings the Cineflex camera technology to Germany's Baltic Sea shores: The audience is taken on a surprising discovery trip following the old Hanseatic trading routes, overlooking the tragic destinies of once great mansions as well as looking at summerly tourist invasions at white sandy beaches. All of nature, wildlife and human activity are presented in this perspective that makes us marvel at the world anew – all the more when discovering beauty a little less known as Werder Islands or the town of Luebeck, a masterpiece of brick architecture.
