

THE CREATIVE UNIVERSE – NATURAL SCIENCE AND SPIRITUALITY IN DIALOGUE

by Ruediger Suenner

SYNOPSIS

The film THE CREATIVE UNIVERSE is asking 14 scientists, if their research allows to build bridges between science and religion. Isn't there a creative power in evolution, that cannot be reduced to molecules and natural law alone? Is there space for something like 'Divine' or a 'higher spirit' without falling into the trap of creationism and 'intelligent design'?
