

# THE LITHIUM REVOLUTION

by Andreas Pichler

## SYNOPSIS

In a time of global resource shortage and increasing energy prices, it is lithium that is on the way to becoming 'the' natural resource of the 21st century. Lithium is the basis for a new kind of battery technology and thus a prerequisite for the spreading of electronic mobility. Is lithium an answer to the imminent energy crisis and key to the future? We tell three stories about the vision of electronic mobility, and the extent to which it already has become reality today.

## CAST AND CREW

DIRECTOR Andreas Pichler

2011

90 min

### FORMAL CATEGORIES

Current Affairs, Conflicts, Human Rights, Sustainability, Nature/Animals, Ecology/Environment, Economy, Politics, Science
