

UMBRA

by Johannes Krell, Florian Fischer

SYNOPSIS

A shimmering light, the rustle of the leaves, the round spots of light in the shade of a tree. The sun reflects on the water. It is an element and counterpart. Can nature observe itself? A cinematic reflection on the presence and absence of things.

FESTIVALS

2019

Seal of Approval 'highly recommended'

festivals among others:

Winner of the Golden Bear – 69th Berlinale SHORTS
