

WHO IS SAVING WHOM?

by Leslie Franke, Herdolor Lorenz

SYNOPSIS

For many years now countries are being saved. Politicians create ever newer rescue funds, while in the middle of Europe people have to work for pittance. Something is being saved, but here is no rescue to be seen. For the large banks the financial crisis is mainly a business model at the expense of democracy and social safety. The ever 'disgruntled' and 'disappointed' financial markets seem to be a special creature which must constantly be pacified.

So who is saving whom? The rich the poor? The politicians the banks? The bailout funds Europe?

Or the taxpayer the 1%? A film that not only educates, but will also develop democratic power.
